**Situation 1:**  
**For non-RoHS 16034G SMD Test Fixture**  
**(S/N: MY441xxxxx and below).**

**Solution/Action:**

Shown are the supported parts and their respective RoHS compliant replacement support part. RoHS conversion involves with design and dimension change which result in the RoHS support part backward incompatible with non-RoHS 16034G. Special handling is needed while using the RoHS replacement part on non-RoHS 16034G. The original support part number is replaced by the respective "RoHS Compliant Replacement Part". Once the original support part is depleted, please proceed to obtain the RoHS compliant support part. Please refer to figure and table 1-1, 1-2 for the respective replacement part accordingly.

**Figure 1-1**

**NOTE: For RoHS Compliant Upper Level Assembly Replacement Part, if multiple parts are replaced by a common higher assembly part, only order ONE part of the higher level common assembly.**

Shown in table 1-1, 1-2 are the original support part and its compatible RoHS replacement part/assembly.

Remarks:

<\*1> Replace all the associated parts marked with <\*1> as they are mutually dependent.

**Situation 2:**  
**For RoHS 16034G SMD Test Fixture**  
**(S/N: MY442xxxxx and above).**

**Solution/Action:**

Shown are the support parts for RoHS compliance 16034G SMD Test Fixture. All the listed items are changed at RoHS conversion. Due to limited availability of RoHS compliance station and technical difficulties in RoHS soldering, only parts and support level that do not require RoHS soldering are supported. Shown are the supported RoHS compliance parts for RoHS 16034G SMD Test Fixture.

Shown in table 2-1, 2-2 and figure 2-1, 2-2 are the respective support parts for RoHS compliance 16034G unit.
