SUPERSEDES: NONE

3425A Universal Source

Serial Numbers: 0000A00000 / 9999A99999

10X High Voltage Option, Opt 002, Requires Different Source and Backplane Assemblies

Situation:

The newly released high voltage option for the 3245A requires modified source and backplane assemblies. These boards are not compatible with the source and backplane assemblies required with the standard one- and two-channel options. Please note the following assembly requirements:

Option	Source Assembly	Backplane Assembly
Standard (1 or 2 Chan)	03245-66511	03245-66502
10X High Voltage	03245-66517	03245-66516

DATE: 23 MARCH 1992
