SUPERSEDES: None

4934A Transmission Impairment Measuring Set**Serial Numbers:** 3547U00000 / 9999U99999**Proper top cover recommendation****Situation:**

To meet the requirements of the EEC 801-2 EMC Specification.

Solution/Action:

Fit a metalised top cover clam shell.

Note:

This change is implemented with serial number prefix 3547U00000. Instruments with this prefix and later will have clam shell part number 03772-60025 fitted. All instruments before this prefix **MUST** use the part number 03772-60015 as the parts are not compatible. Using the metalised clam shell on older units will result in a board being shorted out.

DATE: October 1996
