hp Model 5060A Cesium Beam Frequency Standard  
Serial Number - 00200 or below

Replacement Transistor for A16Q2 in  
Power Supply Regulator Assembly (05060-6026)

The hp part number 1853-0024 is recommended as the replacement for  
transistor A16Q2 in the A16 Power Supply Regulator Assembly  
(05060-6026) series number 512 or below.

When A16Q2 is replaced resistor A16R2 should be changed to 0.33 ohm,  
fixed, wirewound, 5%, 3 W. (0812-0019). This change should be made  
only where the original transistor fails. Assemblies with series number  
612 or above have these changes.

After replacement, the schematic and replaceable parts list in your  
Operating and Service Manual should be changed to show the new part.
