

## S E R V I C E N O T E

SUPERSEDES: None

**5DX X-Ray System****Serial Numbers:**

Series I Systems  
 Series I to II upgraded Systems  
 Series II Systems  
 Series 2L Systems

**Modified spanner wrench for ball screws****Situation:**

The spanner wrench tool (E7200-00070) that holds the x-axis and y-axis ball screws stationary while removing the damaged support bearings can itself cause damage to the ball screw shaft. This tool has been modified so that it will not damage the costly ball screw shaft. The part number for the modified tool is still E7200-00070.

**Solution / Action:**

All CEs should order the modified spanner wrench tool for their 5DX tool kits.

DATE: December 1999
