Solution/Action:

The hole plug that helps stabilize the time base adjustment, p/n E2602-64101, is no longer available. This plug is important to maintain the timebase specifications and stability. To replace the part, assemble a replacement from the new plug for the 86100 series and a metal plug.

Order 1 each,

86100-60024 Hole Plug

6960-0001 Hole Plug

Cut the plastic cap off of 86100-60024 Hole Plug, leaving the foam ~ 2.5 cm long. Insert this foam into 6960-0001 Hole Plug.
