**Situation:**

Options H16 and 016 are the same option. Prior to the release of option 016, option H16 was shipped in the E8267D serial numbers listed above. Only the instruments shipped as H16 included 016 hardware changes and assemblies prior to prefix MY/SG/US4722. At prefix MY/SG/US4722 all E8267D shipped with option 016 hardware. All instruments starting with prefix MY/SG/US4722 can be upgraded in the field with option 016. Instruments with prefix <MY/SG/US4722 can not be upgraded to option 016.

**Solution/Action:**

Option H16 and 016 are the same option. Functionality and support for H16 and 016 is the same. Option H16 instruments report option 016 when queried from the front panel or remotely. Instruments shipped as option H16 rear panel serial tags show option H16.
