PRINTED IN U.S.A.

April 20, 2009  
Rev. 16

**Situation:**

The factory owned demo instruments listed above with prefix <MY4829, <SG4829, and <US4829 were shipped with option 009. Since these instruments have 009 it has generated requests from the field to upgrade older instruments with 009. The instruments were updated for demo purposes and are not intended to indicate 009 can be added to older instruments.

**Solution/Action:**

No action needed, option 009 is NOT field upgradeable in instruments with prefix <MY4829, <SG4829, and <US4829.
