Rev. 19

Situation:

Agilent will no longer provide USB flash storage device with U8903A to our customers, as part of our virus prevention program. This is effective from serial number MY521600004 and above.

Solution/Action:

Starting from May 2nd, 2012, U8903A will no longer be shipped with USB flash storage device. However customers can still use their own USB flash storage device if they need to perform firmware upgrade or data/file transfer through the USB port. Customers are responsible to make sure that their personal USB flash storage device are virus-free before using with U8903A.
